# Sexta às Seis

Website: <https://www.meetup.com/sextaas6>

It's an informal event that aims to present a person, company, project or initiative that is interested in presenting itself to the community, followed by a short space of questions and answers. It is also a moment of conviviality and camaraderie accompanied by snacks and good music.

In the previous editions we had the pleasure to have Anaquim, Gonçalo Quadros, Filipe Albuquerque and João Moreira presenting their path to the Nest community.

# Zain Talks

Website:

- <https://www.meetup.com/zain-talks/>
- <https://www.facebook.com/thezaintalks>
- <https://www.instagram.com/thezaintalks/>

An event aimed at all the people passionate for Design. The Zain Talks is a Design meetup that joins food&drinks, meeting interesting people and listening to theme specific talks.

# Undefined.js

Website: <https://www.meetup.com/Undefined-js/>

Undefined.js is a meetup for JavaScript enthusiasts focusing on the latest trends of JavaScript development being tuned to web and mobile development. For each event, some of the most brilliant minds in the JavaScript community are invited to share their knowledge.

Undefined.js is a free event promoted by RedLight Software meant to be shared with and by the community.

# Create your own Event @ Nest!

We are happy to always be reinventing ourselves and to promote any other meet-up or event that can be useful to our community. Be free to propose new initiatives where you believe Nest could be a fit and a relevant partner. All the proposals will be assessed and supported in the best way possible based on our resources and strategical alignment.

To submit a proposal or idea, please [get in touch](#).
